

# Terms of Service

Last Updated: September 14, 2025

## 1. Introduction and Agreement to Terms

Welcome to StadiaStudios. By accessing or using our websites, games, applications, and services (collectively, the "**Services**"), you agree to be bound by these **Terms of Service** (Terms). Please read them carefully. These Terms of Service govern your use of our websites, games, applications, and services.

The Services are provided by **StadiaStudios**. By accessing or using any of our Services, you agree to be bound by these Terms. If you do not agree to these Terms, you may not use our Services.

## 2. Services Offered

StadiaStudios offers a range of digital products. These include, but are not limited to, games such as **LumberTycoon** and privacy-focused applications like our password manager, **PassPro**. These Terms apply equally to your use of all Services provided by StadiaStudios.

## 3. Your StadiaStudios Account

When you use the official Website or a "Stadia App," you'll have a **local account** stored in your device's storage. This account allows you to save progress, manage settings, and do things such as adding favorites. This local storage is maintained entirely on your device and is not synchronized to StadiaStudios servers.

## 4. Specific Terms for PassPro

### Encryption and User Responsibility

**PassPro is a zero-knowledge service.** This means all your data, including passwords and secrets, is **encrypted on your device only**. We, StadiaStudios, cannot access, view, or decrypt your data. You are solely responsible for protecting your master password or encryption key. If you lose access to your local account or forget your master password, we cannot recover your encrypted data.

## **5. Store Downloads**

The App Store within the StadiaStudios Launcher may feature a few apps that are not exclusively owned by the Stadia Company. We do not claim the rights to all these apps and do not intend to make profit or assert ownership rights over them. We also only use online web links to direct users to other companies' apps.
